Ok, thanks.

If there is time, she'll let him know about our upcoming mercury inventory report, express her interest in marine litter (which I disagree with and am working on her with!), and briefly note an expression of interest from USTR on our SPS notifications. Nothing earthshaking and nothing that really needs any follow up!

Karissa – Chad just asked to change the time and make this a call. He only wants to check in with Alex ahead of the meeting with Bayer – to make sure about approach and whether he needs to actually speak. I'm advising him to leave the talking to Alex, given her familiarity and his lack thereof. As of this moment, no additional points.

Hi – can you send me Chad's points for tomorrow?

Thanks,  
Karissa
